

Recycling day

We have a school event that is held twice a year. It's a recycling day.

Why is it held? Income by recycling is used for the budget for our clubs, activities or committees.

Recycling is hard work. Because we need carry various thing for Example, cans, newspapers and cardboard .We get tired, but we can feel a sense of accomplishment.

But these are not all. We need the local people's cooperation.

Recycling is a good chance to have a relation with local people.

Recycling day is very important event for us.

Recycling day

We have a recycling day.

We collect empty cans, cardboards, newspapers and books.

These pieces trash are changed into money. Before recycling day, we also pass out flyers to our neighbors

On recycling day, we collect trash with our parents, neighbors and friends.

It's hard work, but fun. I think it is important to try hard.

Recycling day

I will introduce our recycle day. We collect many cans, newspapers and cardboards.

We start recycling day early in the morning. It is done twice a year in Kahoku town.

The income we make is about 300,000 yen. It is used for our school events and club activities
