

SPORTS DAY

We have sports day in September every year. We are divided into two groups, white and red. We have three crowns of a sports day. Victory flag, trophy, and marching prize. We form a cheering group for it. They dance and cheer loudly, so they practice hard since summer vacation. We practice some games to win. Especially, in team sports, this is important for victory. We cooperate with all the grades. I was a member of the white team this year. We practiced hard to win, but we couldn't get the victory flag or marching prize. I was very disappointed. Sports day is one of the most popular events in our school.

Sports day

I want to introduce sports day in Kahoku Junior high school.

We have two teams, white and red. I was on the red team this year.

We have a cheering group. Our cheering group started to practice on Summer vacation.

The final game is red and white relay, we have it every year. It's a very good game.

The result is that red team won this year. I think a sports day is very fun.

How is your school sports day?

Sports Day

Our sports day is held in September every year. It is one of the most exciting events in our school. All the students practice very hard to win the sports day.

Our team did their best, but our team lost the game. It has become a good memory for me.

I was in the cheering squad, we got the cheering prize. I cheered hard for our team. I learned that it is important to cheer each other.
