

# Soccer team

Our soccer team practices five days a week. We practice on the school grounds or the gym.

We practice from nine o'clock to twelve o'clock every Saturday. Practicing soccer is very hard, but very exciting. Because we cooperate with each other.

But now we have only nine members in my team. It's not enough to play soccer.

So, I want some students to join our soccer team next year.

# Art club

Our art club practices from Monday to Friday. We have 8 members, 4 boys and 4 girls.

We make *chigirie* every year. We use washi and color papers. It is a very big picture on the wall. It is used for the graduation ceremony.

It was so hard to finish, because we have to make and repair it again and again. But it was valuable for us.
