

Horticulture

- The Student image that horticulture aims at.

The Aim is to cultivate the ability to produce local crops such as buntan, hydrangea, pear, etc., through high-quality manufacturing, and to convey the goodness of the region.

Through plant cultivation experience, we can :

Second grade

Learn how to grow flowers such as cyclamen (shikuramen) as the main product, and consider the social role of flowers.

Comprehensive Training.(2)	Agriculture and Utilisation.	Flowering Plants.(4)	Biological Utilisation.
		Fruit Tree Cultivation.(4)	Vegetable Cultivation.

Know what role agriculture plays and think about the future of agriculture. In addition, we learn the importance of working together in vegetable cultivation and collaborating through experiments.

Students will learn from cultivation, harvesting and sales of buntan, peach and pear through practice. Compare the food and consider the difference in taste depending on the colour, shape, and size.

3rd grade

Think about how to use the cultivated crops.

Comprehensive Training.(2)	Agriculture and Utilisation.	Flowering Plants.(2)	Biological Utilisation. (2)	Environmental Greening Materials.
		Fruit Tree cultivation.(2)	Vegetable Cultivation.	Haruno Seeking. (2)

Divided into teams to conduct various exercises.

Students learn about the cultivation and harvesting of various vegetables, including watermelon and green beans. We think about what is important to cultivate “really delicious”and practice it.
